With the webinar series "Baumer hhs Dialogue", Baumer hhs addresses the challenges and innovations in all areas of the packaging industry.

The webinars cover a wide range of topics: from upgrading and optimising existing production lines to the latest technology, to new functions for adhesive application and quality control in packaging production and print finishing, to improving sustainability in industrial adhesive application. A different focus every day.

All events are held in English and are free of charge for participants.

Join the dialogue with us and register today. That way you won't miss out on the trends of tomorrow.

Your team from Baumer hhs!
