

## Cost estimate for repairs

Products from Baumer hhs are not only designed to function perfectly, they also boast a long service life. However, if a product should ever be defective, users can rely on the Baumer hhs Repair Service.

Before making any repairs, we would be happy to draw up a cost estimate for you.

Starting on **01 August 2018**, we will be charging a flat fee for the time required to prepare cost estimates.

If a repair order is placed, this flat fee will be deducted from the final cost.

Flat fees for cost estimates:
