

This document provides information on packaging and details of the producer who places filled or unfilled packaging on the Union market for the first time.

Under Regulation (EU) 2025/40 on packaging and packaging waste (PPWR), we assume the role of producer, as we manufacture packaged products and place them on the EU market for the first time. To fulfil the labelling requirements under Article 12 of the PPWR, we provide, in the document below, details and contact information for the producer of the packaging supplied. In addition, this document provides information on the packaging used, its material composition and a unique identification number. This identification number is also used in the relevant declaration of conformity and enables the packaging to be uniquely identified. The labelling is based on graphic representations and the material codes in accordance with Decision 97/129/EC, as well as supplementary pictograms. This is intended to help end users sort and collect packaging waste correctly, and enables them to clearly identify the information provided as corresponding to the relevant packaging. Furthermore, this information will be used to record the quantities of packaging materials placed on the EU market.

Producer:

Baumer hhs GmbH

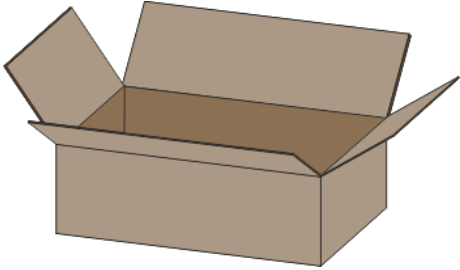

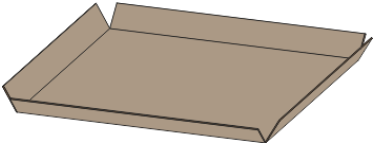

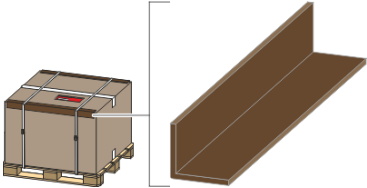

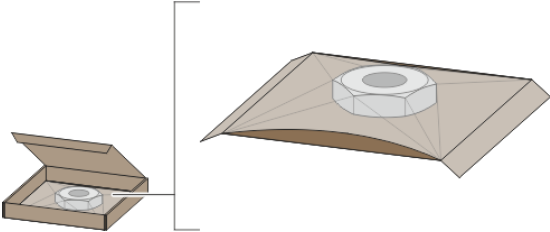

Address:

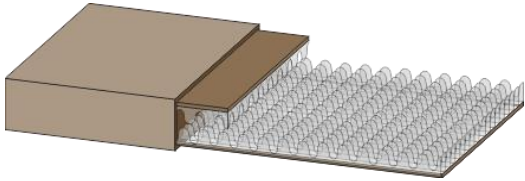

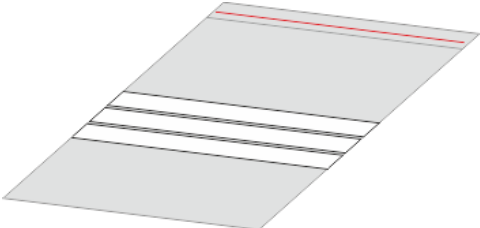

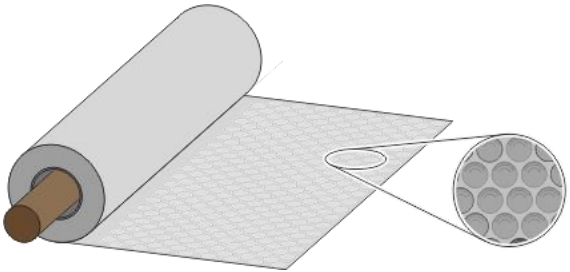

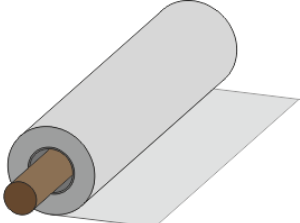

Adolf-Dembach-Strasse 19

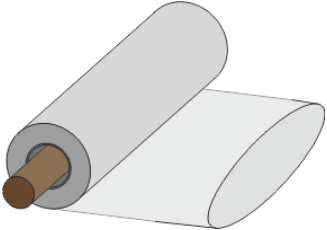

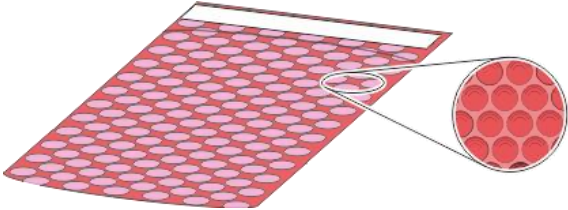

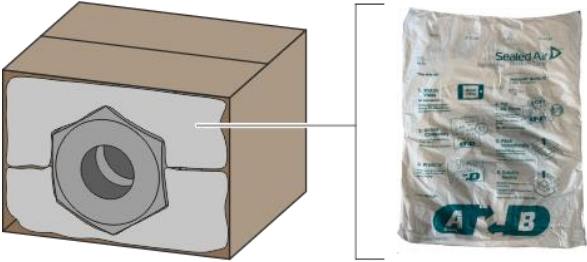

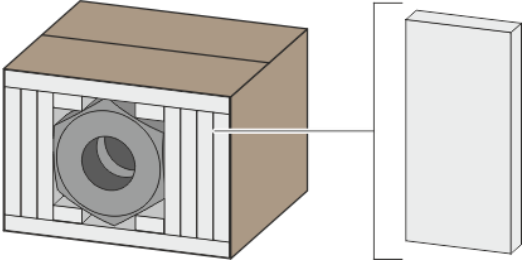

47829 Krefeld, GERMANY
